

Dreaming Big

Will Young

If you were my lover I'd do anything you'd want me to
If you were my lover I would only bare my soul to you

I'm already a fool to myself, might as well be a fool for you
I don't care that I can't help myself
Maybe I'm dreaming big here
Cause in this room everyone wants you

I can't get no joy tonight
And I can't get no joy tonight

People talking round me, but I can't hear a single word they sa
y
All my attention lingers, on every little move you make

I'm already a fool to myself might as well be a fool for you
I don't care that I can't help myself

I wish you'd walk right over
Kiss me hard cause in my head you do
Maybe I'm dreaming big here
Cause in this room everyone wants you

I can't get no joy tonight
And I can't get no joy tonight

Cause maybe I'm dreaming big here
Cause in this room everyone wants you
Maybe I'm dreaming big here
Cause in this room everyone wants you

I can't get no joy tonight
And I can't get no joy tonight, joy tonight

Walk right over kiss me hard
Walk right over kiss me hard

Your fingers on my skin, that's what I'm missing
And I'd drop everything
