

Forever

Will Young

Alone in the city
Where have you been?
The lights they blind me
To my soul
Everyone's waking up
I am not
I'm alone in the city
City

I will wait for you
Ships will sail for you
I'll stand on cliffs for you
Forever, forever

(Forever, forever, forever, forever)

People are saying things
I can't hear
How can you be gone
When I still feel you so near
The world is crashing around me
Without you by my side oh

I will wait for you
Ships will sail for you
I'll stand on cliffs for you
Forever, forever

(Forever, forever, forever, forever)

Running with nowhere to go
I am lost
I'm alone in this city, city oh

I will wait for you
Ships will sail for you
I'll stand on cliffs for you
Forever, forever, forever, forever

(Forever, forever, forever, forever)
