

# Get Me Dancing

Will Young

There's a fire on the kerb  
With the hoods and the gangs  
We're talking to angels  
Warming our hands  
Could you pass me that coat?  
It's cold in the open  
Making the best of what I wouldn't have chosen

Wind blow down the street changing, changing make it better  
A second chance

Come on dance  
Get me dancing  
Make a fire of the night  
Like it's our one night together  
Til the light comes between us  
Do a dance  
Get me dancing  
It's hard being alive  
But it's too early to go home  
Too early to go home

All that I need is something to do, a person to love, to look forward to  
You can wear all your best things, it's only a thought  
I'll wear that suit  
The one you brought

Come on dance  
Get me dancing  
Make a fire of the night  
Like it's our one night together  
Til the light comes between us  
Do a dance  
Get me dancing  
It's hard being alive  
But it's too early to go home  
Too early to go home

Gotta paint a happy face on it  
Now I'm out I want another taste of it  
Looking back I've always made such a waste of it  
It's too late to go home

So come on dance  
Get me dancing  
Make a fire of the night  
Like it's our one night together  
Til the light comes between us  
Do a dance  
Get me dancing  
It's hard being alive  
But it's too early to go home  
Too early to go home

So come on dance  
Get me dancing  
Do a dance, get me dancing

But it's too early to go home  
Too soon to go home
