

Ground Running

Will Young

I've seen this place so many times
We're saving face to save a life
And I'm sinking til I realise you're holding me up
We crawl across the broken floor
I'm ready now so pull me out
And I'm tossing and I'm turning tell me where are you now?

When I let go my heart is open
I hear you call, I hear you calling
When I get lost in a moment
I should have known

That it's just a moment tryna drag me down
Trouble gonna come my way
So keep going
We can hit the ground running
Now that we've started
Only one way out
I'm looking at finish line
So keep going
We can hit the ground running

Struggling to make it last
I made a change, no looking back
We were pulled out of the ocean but still swimming in doubt
Think about the better times
The summer days and rainy nights
You're the best I've ever had so tell me where are we now

When I let go my heart is open
I hear you call, I hear you calling
When I get lost in a moment
I should have known

That it's just a moment tryna drag me down
Trouble gonna come my way
So keep going
We can hit the ground running
Now that we've started
Only one way out
I'm looking at finish line
So keep going
We can hit the ground running

Tryna drag me down, trouble gonna come my way
We can hit the ground running
Only one way out, looking at the finish line
We can hit the ground

But it's just a moment tryna drag me down
Trouble gonna come my way
So keep going
We can hit the ground running
Now that we've started
Only one way out
I'm looking at finish line
So keep going

We can hit the ground running
