Scars

Will Young

If I stay
Do you think we'll make it running down the edge of a blade?
Did we break?
Lying in this king-sized but we could be miles away

We're putting fires out with flames
But baby you're the high I can't replace

Cause I am yours and you are mine
We're speeding cars with no headlights
Crashing down in the dead of night
Cause we're worth it every time

All the hate you's, I love you's, the fights in the bedroom
The times that I shouted your name
We are scars, I am yours and you are mine

Too far gone
Damaging our health but that's the only way that I know
I can't let go
Cause no-one's gonna want you, love you like the way that I do

We're putting fires out with flames
But baby you're the high I can't replace

Cause I am yours and you are mine
We're speeding cars with no headlights
Crashing down in the dead of night
Cause we're worth it every time

All the hate you's, I love you's, the fights in the bedroom
The times that I shouted your name
We are scars, I am yours and you are mine

Feeling the touch of your hand makes me feel alive
Sending me round and around
It hurts me every time

These are the wounds and the scars of my life
Of my life, oh

Cause I am yours and you are mine
We're speeding cars with no headlights
Crashing down in the dead of night
Cause we're worth it every time

All the hate you's, I love you's, the fights in the bedroom
The times that I shouted your name
We are scars, I am yours and you are mine
