

Tired

Willa Ford

You want the truth?
Here it is
Manufactured is this hot pop industry
I know cause they tried to do it to me
Don't let them take away your eyes
Be who you are and stop the sweet talkin' lies
And you're never gonna see me lip sync
And you're never gonna see me try to change
Cause I'm not the one who won't break it down
Follow me and you'll see that I'm gonna blow the roof off of this town

Tired of the blondes that look like me
Tired of you people saying "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines
I'm tired of the crap I take each day
Tryin' to sing my songs
Tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines

Tired of the pop

Shame - It's the game you play for fame
But give it some time you won't remember their names
So you will, so you won't
It's those one-hit wonder melodies who cannot sing a note

And you're never gonna see me lip sync
And you're never gonna see me try to change
Cause I'm not the one who won't break it down
Follow me, and you'll see that I'm gonna blow..
I'll blow the roof off of this town

Tired of the blondes that look like me
Tired of you people saying "Britney"
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines
I'm tired of the crap I take each day
Tryin' to sing my songs
Tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines

Tired of the blondes that look like me

I'm tired of the crap I take each day
Tryin' to sing my songs
Tryin' ta do it my way
I'm tired of the pop that should flop that should never be on TV
And in your teen magazines

Yeah yeah yeah
Yeah yeah yeah
Yeah

Tired of the pop
Tired of the pop
Tired of the pop, the pop

It's the same old thang
Over & Over...

And you're never gonna see me lip sync
And you're never gonna see me change
Cause I'm the one who breaks it down
Follow me
You will see that I'm gonna blow the roof off this town

Tired of the blondes that look like me
