

# Lovin' On Borrowed Time

William Bell

I'm caught in a love trap, I'm captured by your charms  
I know you belong to another  
But I can't stay away from your arms  
And oh, I can't always have you by my side  
So I have to be satisfied just

Loving on borrowed time  
Oh, we're loving on borrowed time

One night a week it's the same old routine  
We have to sneak around so that we won't be seen  
And oh, park on a dark street  
Hide from the people we meet  
You see, we're stealing love and we've got to be discreet

Because we're loving on borrowed time  
Loving on borrowed time

Oh, we're loving on borrowed time (On borrowed time)  
Girl, we're loving on borrowed time (On borrowed time)  
This love is wrong girl  
And we knew it from the start (On borrowed time)  
We got so much to lose  
But we can't stay apart (On borrowed time)  
We keep on loving on borrowed time  
You know we're (loving on borrowed time)
