

Bleed 4 U

William Black

Hope you let me down let me down let me down
Burn it to the ground to the ground to the ground

Let's not play this game
Pretending it'll change
Cut right to the chase
Don't know another way

Go ahead fuck me up 'cause it feels good
Fall in love with the pain more than I should
My heads a mess can't make it through
Do anything I bleed for you

Go ahead fuck me up 'cause I like it
Never look deep enough when I dive in
My heads a mess can't make it through
Do anything I bleed for you

Do anything I bleed for you
Do anything I bleed for you

Hope you let me drown let me drown let me drown
And I won't make a sound make a sound make a sound
Oh now I'm counting down counting down counting down
I won't make it out make it out make it out

Go ahead fuck me up 'cause it feels good
Fall in love with the pain more than I should
My heads a mess can't make it through
Do anything I bleed for you

Go ahead fuck me up 'cause I like it
Never look deep enough when I dive in
My heads a mess can't make it through
Do anything I bleed for you

I bleed for you
I bleed for you
Do anything I bleed for you
I bleed for you
I bleed for you
