

Broken - VIP

William Black

I've been in getting luck down
Finding it out for myself
No one else can pull me out
Count to ten, clean my heart now

Getting all, gonna go out
Just to see if I still know how
I can hardly feel, but I try to pretend
I put my hand on my heart just see if I'm human

You hold your breath just to see if you can
When you've been broken, when you've been broken
Could there be an answer in the heart that set me free?
More than all these empty words that brought me to my knees?

And I'm broken, but I'm hoping
And I'm broken, but I'm hoping
And I'm broken

And I'm broken

Better than I can take it
Learn the song, learn the changes
Nothing else can drown it out
Pull myself and erase it

Made it back and erase it
Just to know that I still count
I can hardly feel, but I try to pretend
I put my hand on my heart just see if I'm human

You hold your breath just to see if you can
When you've been broken, when you've been broken

And I'm broken, but I'm hoping
And I'm broken, but I'm hoping
And I'm broken

And I'm broken

And I'm broken
