

Deep Blue

William Black

There were times we would drive 'til the sun broke
Through the black of the night on a wide road
Paved in dreams that led me back to you
Lit a spark in the dark, gave me no choice
In the night you're a light in the white noise
Suddenly, my heart said something new

In your eyes, I swear I feel forever
And I'm falling into the deepest part of you
In your eyes, I feel my heart surrender
As your love breaks through
I'm lost inside your deep blue

Inside your deep blue

Passing clouds, skipping stars when I got you
In your arms cover scars like a tattoo
Rescue me and put back all the pieces
How did I miss the times that you came through?
When every glance was a chance I was blind to
Now I see you're everything I needed

In your eyes, I swear I feel forever
And I'm falling into the deepest part of you
In your eyes, I feel my heart surrender
As your love breaks through
I'm lost inside your deep blue

I'm lost inside your deep blue
Inside your deep blue
