

Deep End

William Black

Another night
I can't sleep
Wishing I could
Skip to my dreams
Cause the same day
Stuck on repeat

I push away from the edge
Push away all my friends
I should reach out instead
But I can't right now
No, I can't right now

I've been lost in my head
Over something that I said
All these feelings've got me down
In the deep end
Trying not to pretend
Am I losing it again?
Nothing's even wrong
There's no reason

To take it this far
Till I'm falling apart
Maybe I'll feel better in the morning?
Am I making this up?
Did I fall or did I jump?
Could you pull me out
Of the deep end?

Could you pull me out
Of the deep end?
Could you pull me out
Of the deep end?

Holding back
All my tears
I've been trying
To face my fears
Wondering how I keep on
Finding myself here

I push away from the edge
Push away all my friends
I should reach out instead
But I can't right now
No, I can't right now

I've been lost in my head
Over something that I said
All these feelings've got me down
In the deep end
Trying not to pretend
Am I losing it again?
Nothing's even wrong
There's no reason

To take it this far
Till I'm falling apart
Maybe I'll feel better in the morning?
Am I making this up?
Did I fall or did I jump?
Could you pull me out
Of the deep end?

Could you pull me out
Of the deep end?
Could you pull me out
Of the deep end?

I've been losing my head
Over something that I said
Could you pull me out
Of the deep end?
Trying not to pretend
Am I losing it again?
Could you pull me out
Of the deep end?
