

Goodbye

William Black

Not sure what I'm supposed to say
We danced around the point most days
Saw it coming from a mile away
So we save our breath coz we can't change fate
Something had to give, but I wish it wasn't this

Maybe I already missed you
We were sleeping side by side
Yeah, I know we had our issues
But you can't say we didn't try
We were falling out of love not only once, not overnight
Didn't know my heart was breaking till I finally heard you say
Goodbye

Goodbye

Didn't think that I would cry
It hit me hard that we lost the fight
We were holding onto borrowed time
Till I went left and you stayed right
Something had to give, but I wish it wasn't this

Maybe I already missed you
We were sleeping side by side
Yeah, I know we had our issues
But you can't say we didn't try
We were falling out of love not only once, not overnight
Didn't know my heart was breaking till I finally heard you say
goodbye

Goodbye

Didn't know my heart was breaking till I finally heard you say
goodbye

Goodbye
