

Higher Now

William Black

Take me with the wind
Oh
Driving 95 towards the setting sun
Somewhere I've never been
Oh
Fade into dust like a smoking gun

When I find myself again
I'll be standing where the road begins
Never looking back
No
Loving where I'm at
Oh

Feelings don't fade overnight
I just wanna feel alive
Just a little bit higher now
Just a little bit higher
Spinning like a satellite
Moving into overdrive
Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Right around the bend
Oh
Following the stars to an open sky
I'll rise above the rest
Oh
Reflections of myself in a different light

When I find myself again
I'll be standing where the road begins
Never looking back
No
Loving where I'm at

Feelings don't fade overnight
I just wanna feel alive
Just a little bit higher now

Just a little bit higher
Spinning like a satellite
Moving into overdrive
Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now

Just a little bit higher now
Just a little bit higher now
