

Nightmare

William Black

In the dark, felt so alone
I hear the voices tryna break me
I'm not enough so give it up
It's a lie to reach the truth
It's like the movies, or is it real
Tell me where's my happy ending
Cause it hurts to be fake, or else I will break
So help me out

I'm living in a nightmare but I'm still wide awake
The silhouettes surround me, I can't escape
And I'm reaching for a lifeline to calm the waves
Cause I'm living in a nightmare but I'm still wide awake
I'm living in a nightmare
But I'm still wide awake

I'm living in a nightmare
But I'm still wide awake
I'm living in a nightmare
But I'm still wide awake

I'm living in a nightmare
But I'm still wide awake
I'm your worst nightmare

I'm still wide awake
I'm still wide awake

Will you help me out of here
Before I disappear
Oh, I am just surviving
So will you be my guidance, cause

I'm living in a nightmare but I'm still wide awake
The silhouettes around me, I can't escape
And I'm reaching for a lifeline to calm the waves
Cause I'm living in a nightmare but I'm still wide awake

I'm living in a nightmare
But I'm still wide awake
I'm living in a nightmare
But I'm still wide awake
