

# Nothing Left

William Black

I  
I'm scared that there's nothing left

I can't seem to catch my breath  
Feel the light is fading fast  
I'm afraid that I'ma crash  
And never recover  
I tried to fight but I caved in  
Deeper than I've ever been  
Maybe I'll just let this win  
'Cause it's pulling me under, oh

And I don't have the strength  
'Cause it already took the best of me  
God, I'm such a waste  
I can't take any more days like these  
I'm out of second chances  
And I've been pretty damaged  
I'm fraying at the edges  
And I'm scared that there's nothing left

I'm scared that there's nothing left  
There's nothing left  
There's nothing left  
There's nothing left  
I'm scared that there's nothing left  
I'm scared that there's nothing left

Oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh-oh

Tell me where the pattern stars  
I can't tell if I'm here or not  
I'm hanging onto what I've got  
Left with no courage  
Oh, and my mind's been aching  
I'm sick of waiting  
Feels like nothing's changing  
At all

And I don't have the strength  
'Cause it already took the best of me  
God, I'm such a waste  
I can't take any more days like these  
I'm out of second chances  
And I've been pretty damaged  
I'm fraying at the edges  
And I'm scared that there's nothing left

I'm so scared that there's nothing left for me  
There's nothing left  
That there's nothing left
