# Run

**William Black**

Is it all the same
Every step you take
Let it fade away
Try to erase me
Can you see the lights
When you close your eyes
Got it all inside
You can't escape it

Don't be afraid to run
Take me away and run, run, run
Don't be afraid to run

Take me away and run, run, run, run
Don't be afraid to run
Take me away and run, run, run, run

Are we lost in time
Looking for a sign
We're all intertwined
Why are we waiting?

Don't be afraid, don't be afraid to run, run, run, run
Take me away, take me away and run, run, run, run
Don't be afraid to run

Take me away, take me away and run, run, run, run
Don't be afraid, don't be afraid to run, run, run, run
Take me away, take me away and run, run, run, run
(Run, run, run, run...)

(Don't be afraid, don't be afraid to run)
(Take me away, take me away and run)
