

## Final This Time

William Clark Green

we both knew it was gonna come down to this  
yeah, you threw it away like you never really wanted it  
i hope its final this time  
yeah, i hope you really meant it when you said goodbye  
yeah, I hope its final this time

you dont have to worry baby if you only knew  
theres a reason for me leaving he's a whole lot better than you  
Well i hope its final this time  
cross my heart and i hope to die  
yeah i hope its final this time, this time

wish i could remember what i ever saw in you  
i wish i could forget everything you put me through

i hope its final this time  
sign right here on the dotted line  
i hope its final this time, this time

i hope its final this time  
yeah, i hope its final this time  
i hope its final this time  
yeah, i hope its final this time  
i hope its final this time  
i hope its final this time  
yeah i hope its final this time, this time
