

It's About Time

William Clark Green

It's about time, I see it in your eyes
I don't believe you when you start to cry
It's about time, that everybody knows
We ain't together, baby, anymore
It's about time
And I hope I don't cross the line

It's about time that I broke somebody's heart
They've been breaking all of mine from the very start
She gave me all she had, it wasn't what I wanted to find
It's about time that I go out every night
Drinking 'cause I wanna, not because she lost her mind
Spending all my money, down to my last dime
It's about time

It's about time, I ain't coming back
I can hear you now, just a dog in your tread
It's about time, you need to let go
Take a deep breath baby, nice and slow

It's about time that I broke somebody's heart
They've been breaking all of mine from the very start
She gave me all she had, it wasn't what I wanted to find
It's about time that I go out every night
Drinking 'cause I wanna, not because she lost her mind
Spending all my money, down to my last dime
It's about time

Yeah you say I'll be back someday, but I think you're wrong
You can bet that I don't regret moving along
I'm moving on

It's about time that I broke somebody's heart
They've been breaking all of mine from the very start
She gave me all she had, it wasn't what I wanted to find
It's about time that I go out every night
Drinking 'cause I wanna, not because she lost her mind
Spending all my money, down to my last dime
It's about time

It's about time
