

# She Loves Horses

William Clark Green

She blew in  
Like a thunderstorm rolling across the plains  
She's lightning when the sunshine fire and rain  
And then she's gone

And I don't know  
What it is about her heart that speaks to mine  
It makes me think another place another time  
We'd have it all

But she loves horses  
Wide open running wild  
That's where her heart is  
She'll let me hold on for a while  
I won't try to change her  
No way to tame her  
'Cause she loves horses

I can see her now  
Windows down  
Chasin' that damn rodeo  
What I'd give to be the fire  
Burning deep inside her soul

But I know

That she loves horses  
Wide open running wild  
That's where her heart is  
She'll let me hold on for a while  
I won't try to change her  
No way to tame her  
'Cause she loves horses

She loves horses  
Wide open running wild  
It's where her heart is  
She'll let me hold on for a while  
I won't try to change her  
No way to tame her  
'Cause she loves horses  
Yeah, she loves horses  
She loves horses

She blew in  
Like a thunderstorm rolling across the plains  
She's lightning when the sunshine fire and rain  
And then she's gone
