

# All Due Restraint

William Control

Lost a pound of flesh in suicidal dreams  
Drugged up on a London city street  
I awoke without a name in Hell  
Found Scylla and Charybdis

An empty train awaits  
Now I'm headed northwest  
To the beautiful Manchester Sunset  
And now I'm going home  
But where is home?

Synthesized again  
Yeah, I'm flying high  
Ropes are bound and my chest is tied  
In the underground world of Chelsea

This is where we feel love, find life, kill time  
This is where our pessimism comes to die  
Here you can trade your flesh for currency

All due restraint  
take a picture

With all my restraint  
It's my picture

Come with me to the other side  
Come dance with me in the dead of night  
(You say you want to live in the darkness?)  
I'll set you free  
It's a long road to hell and back

Come with me to the other side  
Come dance with me in the dead of night  
You say you want to live in the darkness?  
I'll set you free  
It's a long road to hell and back

Come with me to the other side  
Come dance with me in the dead of night  
You say you want to live in the darkness?  
I'll set you free  
It's a long road to hell and back

Come with me to the other side  
Come dance with me in the dead of night  
You say you want to live in the darkness?  
I'll set you free  
It's a long road to hell
