

## Amsterdam

William Fitzsimmons

Amsterdam is so much prettier than anyone can tell you  
It's the way the water passes you  
Every single road  
When I first met you there your face was young  
And though we've gotten older  
I still think of you the way I did  
So many years ago

You know life can change before you realize  
You were ever happy  
And you wake up just to find you're living  
Someone else's life  
I regret the ways I hurt you when you  
Trusted me to save you  
But I don't regret the way you loved me  
While you were alive

Amsterdam  
I never will forget you  
You're always on my mind  
You carried me through darkness  
I'll see you there in time

Don't recall the words we spoke the last time  
You and dad came over  
Probably something bout the kids or how  
The money's always tight  
I was told you never leave the house  
Without the words I love you  
No one told me it'd be the last time  
So I just said good night

Amsterdam  
I never will forget you  
You're always on my mind  
You carried me through darkness  
I'll see you there in time  
I'll see you there...
