

I Will Not Forget You

William Fitzsimmons

Dishes on the table
Clothes are on the floor
20 miles from Pittsburgh
Where you left the world
Where you left the world

I think I remember
Most of what you said
You start to lose the details
When nothing else is left
Nothing else is left

But I will not forget you
Even though pictures start to fade
I will not forget you
Even though time takes you away (away)

Do we ever realize
Right before we're gone?
We're breathing out forever
Or maybe we go on

But I will not forget you
Even though pictures start to fade
I will not forget you
Even though time takes you away
I will not forget you
Even though nothing stays the same
I will not forget you
Even when nothing else remains

Oh I will not forget you
I will not forget you (ohh)
I will not forget you (ohh)
I will not forget you
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you (I will not forget you)
I will not forget you
