

# On My Radar

William Fitzsimmons

However gone you get  
However full my days are  
I'm still not over it  
You're still on my radar

In every crowded room  
Every still cafe park  
I look for you  
You're still on my radar  
You're on my radar  
You're on my radar

I watch the screens  
Dimly lit, listening  
I'd trade the time  
For any sign of where you are, are  
You're on my radar

And in this house we built  
Your picture still on my wall  
Can you hear me sing  
You're still on my radar  
You're on my radar  
You're on my radar

I watch the screens  
Dimly lit, listening  
I'd trade the time  
For any sign of where you are, are  
You're on my radar

Maybe I will sleep with ghosts  
Every single night  
Maybe I'll believe it's you  
Just beyond the light  
And that's fine

Mmm, you're on my radar  
I watch the screens (you're on my radar)  
I'd trade the time (you're on my radar)  
I watch the screens (you're on my radar)  
I'll wait for signs (you're on my radar)  
You're on my radar
