

# I Don't Wanna Leave

William McDowell

We've been waiting for this moment  
Now we're standing in Your presence, Jesus  
Gazing into eyes like fire  
You're the only One that matters now

And all our fears are swept away  
As we see You face to face

Surrounded by Your love  
I've found a place of peace  
I've found a place of grace  
Wrapped in Your embrace and I don't wanna leave

Here in Your presence  
Such a sweet release  
I can feel Your joy  
Rushing over me  
And I don't wanna leave

Only You can satisfy us  
So we bow to give You worship, Jesus  
Holy, holy  
You're the only One that matters now

And all our fears are swept away  
As we see You face to face

Surrounded by Your love  
I've found a place of peace  
I've found a place of grace  
Wrapped in Your embrace and I don't wanna leave

Here in Your presence  
Such a sweet release  
I can feel Your joy  
Rushing over me  
And I don't wanna leave

Surrounded by Your love  
I've found a place of peace  
I've found a place of grace  
Wrapped in Your embrace and I don't wanna leave

Here in Your presence  
Such a sweet release  
I can feel Your joy  
Rushing over me  
And I don't wanna leave

Oh, oh, oh
