

Nothing Like Your Presence

William McDowell

There's nothing like Your presence, Lord
All I want is to be with You
There's nothing like Your presence, Lord
All I want is to be with You

There's nothing like Your presence, Lord
All I want is to be with You
There's nothing like Your presence, Lord
All I want is to be with You

To be with You
To be with You

There's nothing like Your presence, Lord
All I want is to be with You
There's nothing like Your presence, Lord
All I want is to be with You

There's nothing like Your presence, Lord
All I want is to be with You
There's nothing like Your presence, Lord
All I want is to be with You

There's nothing like Your presence, Lord
All I want is to worship You
There's nothing like Your presence, Lord
All I want is to worship You

There's nothing like Your presence, Lord
All I want is to be with You

There's nothing like Your presence, Lord
All I want is to be with You
There's nothing like Your presence, Lord
All I want is to worship You

There's nothing like Your presence, Lord
All I want is to worship

You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God

And we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You

You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
You are God and we worship You
