

We Just Want You

William McDowell

Come on let's put those hands together one more time
We going to play something tonight
Let's go

We need Your Spirit pouring out on us, Oh God
We need revival stirring up oh god
We just want you, we just want you
We just want you, we just want you
Hallelujah come on help us sing

Creation waits, Creation waits
We people long for You, We people long for You
Yes Lord
We Anticipate a Mighty Move
We're leaning, We're leaning
Trusting, trusting
Patiently, Patiently we are waiting, we waiting
We desperate we desperate and we are and we are
Crying out

And we need
Your spirit, your spirit Pouring out on us
Oh God we need you, we need you
Revival, revival stirring up oh god
We just want you, we just want you
We just want you, we just want you
Come on let's sing that again

Creation waits, Creation waits
We people long for You, We people long for You
We Anticipate a Mighty Move
We're leaning, We're leaning
Trusting, trusting
Patiently, Patiently we are waiting, we waiting
We desperate we desperate and we are and we are
Crying out

Somebody shout tonight
We need Your Spirit pouring out on us, Oh God
We need revival stirring up oh god
We need Your Spirit pouring out on us, Oh God
We need revival stirring up oh god
We just want you
God we lift up our voices in this room
We lift up our hands in this room
Because we know we need a revival in this land
We know that you don't just send revival
You come yourself
And so we give you praise today
We are listening on behalf of the nations on the earth
Because as we look around we know
We know that we needed a permanent church
We need an eternal God of the nation
We know we needed a God in the world

So we lifted up our voice
So we reach out to you tonight

All around the world crying out to God
Come on and save us
Come on and save us
Come yourself
We ask you God, God
We are asking come on come let us pray come
Holy spirit we'll pray
Come we're praying we're praying come
We're praying come holy spirit
We need to move move
We are desperate for you
The nation needs you oh
Holy spirit so we pray to you ooh

This morning, this morning
Transform us, transform us
Transform us, transform us

And we need And we need your power
We need your voice

We need your hand
I need some people to lift up their voice in this room
Some people who are hungry for God

Blessed are those who know that they need God
For there is a kingdom
Blessed are those who know that they need God
For there is a kingdom
Any body need him in this room
We are asking you to move, move

Somebody get down and praise in this room
Somebody release a sound in this room
Someone release a sound in this room
We serve an awesome God
We serve a mighty God
We serve a faithful God
We serve a God that keeps his promises
And everything he says is yes and amen
