

# The Sound

William Murphy

Here we go  
Listen  
There is a sound that you are waiting to hear  
(The sound) that you will use  
To break your people through  
So we lift our voices in praise  
Praise is what we do

And we'll sing unto you Lord  
Until you break us through  
It's the sound that you heard at Jericho  
It's the sound that you heard in that Philippian jail  
It's the sound that you will use to set your people free

There is a sound that tells me what you need  
(The sound) that sound that draws me to where you are  
Tells me what you're ready for  
So we lift our voices in praise  
Praise is what I do

And we'll sing unto you Lord  
Until you break us through  
It's the sound that you heard at Jericho  
It's the sound that you heard in that Philippian jail  
It's the sound that you will use to set your people free  
It's the sound that you heard (when I was going through)  
It's the sound that you heard (when I was crying out for you)  
It's the sound that you will use to set your people free

It's the sound of Jubilee, set your people free  
Release my destiny, I want it all back

It's the sound of Jubilee, set your people free  
Release my destiny, I want it all back

It's the sound of Jubilee, set your people free  
Release my destiny, I want it all back

Set your people free  
Set your people free  
Set your people free  
Set your people free

I want it all  
I want it all  
I want it all  
I want it all

Set your people free
