Write A Song

William Murphy

How do I know it's time to write a song?
I've been talking to the Lord all day long
How do I know it's time to sing my song?
I've been listening, I've been hearing all day long

Here's my song, I will sing it all day long
Here's my song, I will sing it all day long

How do I know it's time to write a song?
I've been talking to the Lord all day long
How will I know it's time to sing my song?
I've been listening, I've been hearing all day long

Here's my song, I will sing it all day long
Here's my song, I will sing it all day long
How do I know it's time to write a song?
I've been talking to the Lord all day long
How will I know it's time to sing my song?
I've been listening, I've been hearing all day long

I will sing a song that keeps your intention
Every time I mention your name
I will raise a song so You'll listen
I'll never be the same

I will sing a song that keeps your intention
Every time I mention your name
I will raise a song so You'll listen
I'll never be the same

Here's my song, I will sing it all day long
Here's my song, I will sing it all day long
How do I know it's time to write a song?
I've been talking to the Lord all day long
How will I know it's time to sing my song?
I've been listening, I've been hearing all day long

How do I know it's time to bless your Name
I've been fighting for my joy
And my situation won't change

Here's my song, I will sing it all day long
Here's my song, I will sing it all day long

This is my story, This is my song
Your song is my song, It's my favorite one
Your song is my song, it's my favorite one
Your song is my song, it's my favorite one
Your song is my song, it's my favorite one
Your song is my song, it's my favorite one
Your song is my song, it's my favorite one
Your song is my song, it's my favorite one

How do I know it's time to write my song
