

# You've Already Won

William Murphy

Every battle is won with lifted hands  
When we fall on our knees we make our stand  
You have all power  
Every other power must bow down  
You have all power  
And every other power is already defeated

You're a mighty champion  
And You are undefeated  
Don't what you see right now  
But just remember you've already won

Every battle is won on the threshing floor  
Lord we call on Your name 'cause we want more  
More of Your power  
So that every other power must bow down  
You have all power  
Every other power is already defeated

You're a mighty champion  
And You are undefeated  
I don't know what you see right now  
But just remember you've already won

It's not your fight  
So please stand still  
'Cause I believe the enemy you see today  
You won't see again

It's not your fight  
So please stand still  
I believe the enemy you see today  
Is already defeated

You're a mighty champion  
You are undefeated  
I don't know what you see right now  
But just remember you've already won

It's not your fight  
So please stand still  
I believe the enemy you see today  
We won't see again

It's not your fight  
So please stand still  
I believe the enemy you see today  
Is already defeated

You're a mighty champion  
You are undefeated  
I don't know what you see right now  
But just remember you've already won

God is for me  
And I have the victory  
God is for me

And I have victory

God is for me  
I have victory  
God is for me  
I have victory

God is for me  
I have victory  
God is for me  
I have victory

God is for me  
I have victory  
God is for me  
I have victory

God is for me  
I have victory  
God is for me  
I have victory

God is with me  
I have victory  
God is with me  
I have victory

God is with me  
I have victory  
God is with me  
I have

I got winning on my life  
I got winning on my life  
I got winning on my life  
I got winning on my life (I have)  
I have

I got winning on my life  
I got winning on my life (I have)  
I got winning on my life  
I got winning on my life (I have)  
I got winning on my life  
I got winning on my life (I have)  
I got winning on my life

I don't know what you see right now  
But just remember you've already won  
You've already won

You've already won  
You've already won

I got winning on my life  
I got winning on my life  
I got winning on my life  
I got winning on my life

I got winning on my life  
I got winning on my life  
I got winning on my life (I have)  
I got winning on my life (I have)

Don't know what you see  
You've already won
