

## Downtown (Up North)

William Ryan Key

You just appeared  
A sweet apparition  
While I was so sure  
What I had become  
We dressed in black  
Went out on the water  
Sky was on fire  
And I was undone

I'll be waiting downtown hoping you do me in  
Sirens singing with me while I lose you again  
I may be tired all these years lost in love  
But I'll be waiting downtown while you leave just enough  
Leave too much more  
And I'll stay up north

Walking you home  
Stopped on the corner  
Reached out your arms  
Flew off in the night  
I've had some smoke  
And mirrors around me  
But never been lost  
Like I get in your eyes  
Get in your eyes

I'll be waiting downtown hoping you do me in  
Sirens singing with me while I lose you again  
I may be tired all these years lost in love  
But I'll be waiting downtown while you leave just enough  
Leave too much more  
And I'll stay up north

I'll be waiting downtown hoping you do me in  
Sirens singing with me while I lose you again  
I may be tired all these years lost in love  
But I'll be waiting downtown while you leave just enough  
I'll be waiting downtown while you leave just enough  
I'll be waiting downtown while you leave just enough  
Leave too much more  
And I'll stay up north
