

Floods 7

William Singe

All the pretty brown things I know they love me
Pretty boy but don't make me turn it ugly
Unless you got a gavel baby don't you judge me
Unless you got a gavel know I gotta

Haul across the country just to get to you-town
I'll whoop a nigga if they come mess with the view now
I got the fortune and the fame I just want you around
I just want you around you know I gotta

You know I gotta pop shit
24 letters but you know my X toxic
She shot her shot but then my new girl went and blocked it
She read the news that she was light-work and she stopped it

Yeah

Can't stop what comes to me it's mine now
LA 3 hours back so I ain't got the time now
I'm on thin ice so every line I walk is fine now
She bad as hell she boutta let a nigga find out

If she pours
And floods hit the doors
I'm drowning
In the liquor I'm drowning
In the liquor I'm drowning
If she pours
Better close the doors
If not I'm drowning
In the money I'm drowning
Rain on me when I'm drowning
Drowning

I just be sowing words together when He say sow
Can't build no blocks that's gonna hurt me when I leggo
Been throwing demons off the deep end like I'm Bledsoe
Been throwing demons off you know I gotta
This one right here for all the shawties in the Bay
Got Hamilton up on the screen but I don't play
My Mac-11 super soaker when it spray
Unless you got a gavel know I gotta

You know I gotta pop shit
Keep popping off and I'ma turn this to a moshpit
I got a girl in every city that I stop in
It's just I think I found the one and so I stopped it

Yeah

Can't stop what come to me it's mine now
LA a day away so I don't got the time now
I'm on thin ice so every line I walk is fine now
She had as hell she boutta let an Aussie find out now

If she pours
And floods hit the doors

I'm drowning
In the liquor I'm drowning
In the liquor I'm drowning
If she pours
Better close the doors
If not I'm drowning
In the money I'm drowning
Rain on me when I'm drowning
Drowning

You know I gotta pop shit
24 letters but you know my X toxic

Yeah
You know I gotta
Know I got it
Noah, Noah got it
