

## graces interlude

William Singe

I been thinking, you been thinking you'd stay  
And I been feeling, you been feeling your way through  
I can listen to you chatter all day  
I wanna be him, I gotta be him, yeah

Don't see the sign, shit that's as bright as they shine  
Baby, I could change your life  
If you would just change your mind  
You know, just give it time you said you looking for love  
Baby I'm here, are you blind? Oh

I don't need another friend, no  
Tell me when I can see you  
Tell me when I can come through  
Tell me when you can imagine us  
Just being friends, no  
Don't need to be in your bed  
Just wanna be in your head  
Don't need another friend

Please  
Just give me one chance  
Don't leave
