

Love Make

William Singe

I got your legs spread all over the bed
Hands clenching the sheets
Hair wild as hell, I know
The only thing on your mind is sexing me
Girl I can feel your temperature rising
You should feel my nature too
Come on, it's gonna be a bumpy ride
(Girl let's do) what we came to do

Girl when we make love all night
When we make good love all night
When we make love all night
We really make love (they ain't never love like this)
Girl when we make love all night (we be making good love)
When we make good love all night
When we make love all night
We really make love (come to daddy)

So when we make love
I start with kissing on your body
You know I love everything about it
Girl you got it
You just tell me where to touch and I
I'ma lick it 'fore I go to beat it up
That's just how I feel, on my Mike shit
Singing like Jackson but only talking Tyson
Know just how you like when I turn you on your side
Then I flip from your back to your front, bust it wide yeah

Oh yeah we make love
I beat it, beat it up, oh yeah
Don't feel the try
I need a hit, somebody gonna ply, oh

Girl when we make love all night
When we make good love all night
When we make love all night (all over you)
We really make love (all over me)
Girl when we make love all night
When we make good love all night
When we make love all night (when we)
We really make love (everybody sing)

If it's the house, in the mall, in the jeep babe (in the house)
In the tub, in the pool or the beach babe (don't matter to me)
Get your groove on (yeah yeah)
Get your groove on (if you gotta lay it, show them what you really mean)
If it's the house, in the mall, in the jeep babe
In the tub, in the pool or the beach babe (it don't matter to me babe)
Get your groove on (get your groove on)
Get your groove on (oh)

Girl when we make love all night
When we make good love all night
When we make love all night
We really make love
Girl when we make love all night

When we make good love all night
When we make love all night (yeah)
We really make love (we need to make love right now)

Girl I love it when we're on the floor
I love it when we're on the couch
I love it when we're in your bed
