Yeah, t-rex but you worth it, girl, that's what I'm throwing in
Arched back, now working, yeah I love when you throwing it
Climax when your words in but I gotta keep going it
Timeout, gotta recharge to repeat

Maybe it's weed
But I just can't keep this off you (in a dress, shit)
I'm just tryna get that off you
Put you on baby, let me put you on
But once you get that placement, there ain't no falling on

Fuck that, I can't wait
I need it right now [?] right now
Know you got work and I got [?]
But if you stay here girl I gotta eat out
This is how I get down
I ate you, yes you feeling these vibes
I know you gonna wanna keep down
And you so wet, girl I'm gonna sing [?]

Know you ready for this D
Throw your clothes on the ground
Then go 'head, shut it down
I wanna hear that sound
I wanna hear that sound

I been tryna get that water work that is special
Only had a puff, babe, baby just relax
You keep, you can keep your feet off this bed and make a scene
And I'll be working all night, just to, just to get you featured

I, woke up, slid slid through the DM
I know they hoes when I see 'em
Curve curve when they getting on your nerves
Heard your shit flow, need to DM
Got times so you better speak your mind
Shit times, I've gotta go with the time
I'll come back in the dark if you're down
I don't play, my man ain't around shit
Nightlife nigga, baby showing it to me
My eyesight's with a shorty throwing it to me
And I can't catch it, girl I can't
Been thinking your man might sweat it
You like creeping, I'd rather be home though
With a bad woman, she making her own dough
She don't play games like one of those consoles
My Xbox old but vintage like Halo
Well, that my mind now, I'm ready for new things
You so low key, a tenant cannot sing
Gassing your ass like nigga just ate beans
Royalty tings, I'm ready for my queen
Don't mind me, you're always on my mind
Can't resize, I'll keep it a straight line
No iPhone but feeling her Facetime
Girl time, baby you freed up my free time

Know you ready for this D

Throw your clothes on the ground
Then go 'head, shut it down
I wanna hear that sound
I wanna hear that sound

I been tryna get that water work that is special
Only had a puff, babe, baby just relax
You keep, you can keep your feet off this bed and make a scene
And I'll be working all night, just to, just to get you featured

Let it splash on me
Only had a puff, babe, baby let it splash on me
Baby just relax
Working all night, working, working all night
