

# Only Human

William Singe

I don't feel that much  
But when it comes to you I get something  
Got no words to explain what it tells to me  
I just know it ain't the same now that you're it

Basically I cannot  
Usually I'm the one leading  
But you got this power over me  
Yeah, you don't know how much it's shown me, yeah

Even though we're world apart  
You see under the surface of me, oh, whoa  
The secret they wish to unfold, yeah  
Only you can make me feel only human

Like a river, I'm flowing with your feelings, girl  
Going deeper and deeper in your motion, whoa, whoa, whoa  
Find a meaning to one that I feel, now you're in me, ah  
(Only you can) only you can make me feel only human

What is this [?]  
You fill me with a feeling

Only human  
Only human  
Only human  
Only human
