

Ride

William Singe

Take off those heels
Lay on my bed
Whisper dirty secrets while I'm pulling on your hair
Poison in our veins
But we don't even care
Candles drippin' on your body
Baby this ain't truth or dare
Everybody wonders where we've run off to
My body on your body, baby, stickin' like some glue
Naughty, let's get naughty
Girl, it's only me and you
Fever's fucking running
Feel the heat between us two

I'm gon' ride
I'm gon' ride
I'm gon ride
I'm gon' ride
On you baby, on you lady
All night, all night
I'm gon' take care of your body
I'll be gentle make you scream
It's getting hotter, make it softer
Feel your chest on top of me
I'm gon' ride
I'm gon' ride
I'm gon ride
I'm gon' ride
On you baby, on you lady
All night, all night
I'm gon' make you feel that loving
And gettin' weak all in your knees
Kiss your body from the tip top
All the way down to your feet
