Run It Back

William Singe

Tell me what's the issue
I don't feel wrong right here
Know you been through some many emotions
I know it ain't your thing
But girl I'm with you
Yeah I can keep the pace wit ya baby
Just don't keep me waiting
Cause we got things In Common
We both been afflicted
So you keep your distance
But I'm just tryna clear it

If you let me run it back
I'mma let you take advantage
You can't compare them to me
All they ever did was damage
Never do your heart like that
You ain't gotta understand it
But I would never lose it
Oh no no

Baby you you
You should let me run it back
Run it right back yeah run it right back like
Baby you you
You should let me run it back
Run it right back yeah run it right back like

Do you wanna remedy for
All the times when you couldn't walk on water
Girl them relationships was built for sinking, you not thinking
Do you want me for you to let it all out on
Do you wanna let it all out on me
Can't nobody free you like you free you
You could never lie to you to don't lie to me yea
I'll never take advantage
I know your hearts been damaged
If you don't want them then don't talk to them
Girl they can manage
They'll manage, no damage
Let me get thru to you, come running

Baby you you
You should let me run it back
Run it right back yeah run it right back like
Baby you you
You should let me run it back
Run it right back yeah run it right back can you run it right back like
