

# Rush

William Singe

I said it was the last time  
Last time, last night, glassed eyes  
Sweet, sweet vice  
Watch you baptize  
My mind just one more time

Can you take me there tonight?  
Show me a light  
Take me up to paradise  
Come bring me back to life

It's just a little rush  
I'm coming up every time we touch  
It's just a little rush  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no)  
Can't leave you alone (it's you I been on so)  
It's just a little rush  
It's like everything I do depends on you

I'm having conversations with angels, dreamers, and demons  
I'm just tryna catch a ride to the city  
Backseat to another man's vision

Can you take me there tonight?  
Show me a light  
Take me up to paradise  
Come bring me back to life

It's just a little rush  
I'm coming up every time we touch  
It's just a little rush  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no)  
Can't leave you alone (it's you I been on so)  
It's just a little rush  
It's like everything I do depends on you

I just can't sleep so  
I been on you  
Watching your leaves fall down  
I just can't breathe til'  
I'm around you  
How hard can it be?  
Oh, tell me

It's just a little rush  
I'm coming up every time we touch  
It's just a little rush (just a little rush baby)  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no, no)  
Can't leave you alone (it's you I been on, you)  
It's just a little rush  
It's like everything I do depends on you

Depends on you babe  
Said it depends on you baby

Depends on you  
Depends on you baby
