

STAND IN

William Singe

You ain't got too much to show for it
He was just puttin' on a show for ya
Ain't even call you from the road
Said that he'd be checking in
But you ain't even know
Who he be stepping with

I don't understand why you still stand it
That's his character that ain't bad habits
I would never treat you like that so
When you pull up north again
Imma make you never wanna leave
Who you're standing with

Shape up, I been getting my weight up
I been grabbing your waist
Tryna make you realize what you wasting
Tell that fuckboy not to play with me
Tried with you now you lay with me
Had to do what I had to do
I been charged up, ain't no shading me, no

Girl you know the hotel
That I'm at, that you been
Said you parking, where you at
I been waitin', elevator
To the lobby, there you stand
Fuck yo friends, you the one
Fuck yo man, I'm yo man
Ain't no stand in

'Cause I stand out
Never needed no handout
Work hard for my bands now
Your man bout to be man down
He ain't a fan now

I mean I'll be alright either way
I mean I'll be alright either way
I'd rather have you
Fuck any love that you think you found
Girl I think you'll find he's a temp for now
We can blow the tree, we can sip the Crown
It's the simple things but I ain't simpin'

You love me once before we'll love again
I guessed you gotta fuck me once before we find out
If it ever means anything
If it ever eases the pain yeah
Tell me you gon' leave him babe
Tell me I'm all you need

Girl you know the hotel
That I'm at, that you been
Said you parking, where you at
I been waitin', elevator
To the lobby, there you stand

Fuck yo friends, you the one
Fuck yo man, I'm yo man
Ain't no stand in

'Cause I stand out
Never needed no handout
Work hard for my bands now
Yeah...

On this stand in really what I do
You don't miss
I'll be making much
Bitch you should leave
I don't fuck with you
I don't fuck with you
I'll be making much

On this stand in really what I do
You don't miss
I'll be making much
Bitch you should leave
I don't fuck with you
I don't fuck with you
I'll be making much
