

Never saw myself in love
Only saw myself gettin' into more trouble
Never been the type to trust
Ain't no way in the world you'd ever see me settle
Aw, you'd never see me settle down

Never been the type to crush
Wouldn't put myself under that much pressure
Never have the time to brush
I gotta get out the game before the next level

Never ever felt like this before
Now I can't get enough, and I want more
Uh, yeah, I want more

It ain't always easy
To let down my guard, open up my heart
And feel this
Even when it hurts, it's always worth the healin'
Girl, you keep me needin'
Something to believe in
Even when it ain't so easy

Even when we wanna fight
Gotta take a step back, get out of my ego
When I gotta swallow my pride
I might walk away, but I'm never gonna leave, no

Sometimes, the battle ain't worth the pour
We're on the same team, so what we're fightin' for?
What we fightin' for, baby?

It ain't always easy
To let down my guard, open up my heart
And feel this
Even when it hurts, it's always worth the healin'
Girl, you keep me needin'
Something to believe in
Even when it ain't so easy

Who would have thought I'd ever change
Wanna put a ring on it and everything
Yeah, baby, oh

It ain't always easy
To let down my guard, open up my heart
And feel this
Even when it hurts, it's always worth the healin'
Girl, you keep me needin'
Something to believe in
Even when it ain't so easy
