

Lead Me Back Home

Willie Jones

I took the country roads, I paid the city tolls
Seen more than the story told, still nothin' moves my soul
Like home, like home, like home

I remember my mama sang, "Don't forget to spread your wings"
'Cause that's what will set you free, you will always have a piece of me
Back home, back home, back home, yeah

I tried but I can't find the words to say
So thankful for the man you made of me
She said, "I pray you'll always find your way"
And when I'm feelin' lost and down her love turns me around
And all of these roads lead me back home

(Lead me back home) Yeah
(They) Lead me back home
(Lead me back home)
(They lead me back home)

I know just when to cry, I've learned the time to lie
Her prayer's keepin' me alive, I've got angels by my side
So guide me home, they guide me home, they guide me home, yeah

I tried but I can't find the words to say
So thankful for the man you made of me
She said, "I pray you'll always find your way"
And when I'm feelin' lost and down her love turns me around
And all of these roads lead me back home

(Lead me back home)
(They) Lead me back home
(Lead me back home)
(They) Lead me back home

(Lead me back home) Yeah
(They) Lead me back home
(Lead me back home)
(They lead me back home)

I can't wait to take a ride, lay back on the countryside
Playin' bones to pass the time, I'm homegrown till the day I die
So take me home, so take me home, take me home, mmm, yeah
Lead me back home
