

Let's Be A Love Song

Willie Jones

Let's be a love song, baby
Patsy Cline kind of crazy
We already fit together like the perfect rhyme
I'm talking timeless in three-quarter time
Let's be a love song, baby

I don't wanna wind up one of those tunes
The heartbreak kind lonely people drink to
When it's two for one
And they're missing someone
We're more than a honky tonk shaking that thing
Summertime jam, number one for a week, then it's gone
That ain't what I want
Let's be a love song, baby
Song
Let's be a love song, baby
Song

Whatever it is girl, we have it, mmm
You know, the magic that makes it a classic
Yeah, put us on vinyl, send us on out
They'll be singing 'bout us years from now

I don't wanna wind up one of those tunes
The heartbreak kind lonely people drink to
When it's two for one
And they're missing someone
We're more than a honky tonk shaking that thing
Summertime jam number 1 for a week then it's gone
That ain't what I want
Let's be a love song, baby
Song
Let's be a love song, baby
Song

Song
Let's be a love song, baby

I don't wanna wind up one of those tunes
The heartbreak kind lonely people drink to
When they're missing someone
We're more than a honky tonk shaking that thing
Summertime jam, number one for a week, then it's gone
That ain't what I want
Let's be a love, let's be a love, let's be a love song
Song
Let's be a love, let's be a love, let's be a love song
Song
