

# Right Now

Willie Jones

A couple of drinks, a couple of laughs  
A couple of nights I'd wish we'd go back  
But all we got is the moment  
So baby there's no slowin' down  
Melodies turn to memories  
And we'll sing so loud till our voice goes out  
Let the sun go down in this ol' ghost town  
I want your friend, there's no backin' out

You call your friends and I'll call mine  
I'm wastin' my drink, I ain't wastin' no time  
Gettin' wasted all night  
What's nine to five when I'm with you  
All good things, they come to an end  
And so do the bad, so let the good again  
Grab a drink, grab a friend  
And drown away your sins

Sippin' Bombay and lemonade  
Bring it over my way  
About to be a damn good night right now  
Drinkin' out the bottle, hope to see you tomorrow  
I ain't worried about my life right now  
So shut your mouth and pull me closer  
We'll dance until the night is over  
But I ain't keepin' count  
It's summer time on someone's time right now

A couple of nights  
A couple of days  
A couple of ways I'm tryin' to get paid  
But all I got is the moment  
So, baby, there's no slowing down

Memories turn to melodies  
And we'll sing so loud till our voice goes out  
Let the sun go down in this ol' ghost town  
I want your friend, there's no backin' out

You call your friends and I'll call mine  
I'm wastin' my drink, I ain't wastin' no time  
Gettin' wasted all night  
What's nine to five when I'm with you  
All good things, they come to an end  
And so do the bad, so let the good again  
Grab a drink, grab a friend  
And drown away your sins  
Yeah, baby

Sippin' Bombay and lemonade  
Bring it over my way  
About to be a damn good night right now  
Drinkin' out the bottle, hope to see you tomorrow  
I ain't worried about my life right now  
So shut your mouth and pull me closer  
We'll dance until the night is over  
But I ain't keepin' count

It's summer time on someone's time right now

All good things they come to an end  
And so do the bad, so let the good again  
Grab a drink, grab a friend  
And drown away your sins  
Yeah, baby

Sippin' Bombay and lemonade  
Bring it over my way  
About to be a damn good night right now  
Drinkin' out the bottle, hope to see you tomorrow  
I ain't worried about my life right now  
So shut your mouth and pull me closer  
We'll dance until the night is over  
But I ain't keepin' count  
It's summer time on someone's time right now
