

# Windows Down

Willie Jones

Let me pick you up, let's ride in my Chevy  
Lighten the mood, 'cause it's been a little heavy  
Turn the music up, and ride with the windows down  
Let's go to that spot where we used to kick it  
Let's get down, get the hell out of the city  
Turn the music up, and ride with the windows down  
Let's ride with the window down

Everything on the news with bad news  
Every time I turn it on, they always sing the blues  
Politicians tell lies, but I'ma tell the truth  
So listen up, 'cause it's about to go down  
I got a full tank of gas, with nowhere to go  
Put your bag in the back, and let's hit the road  
I got that soul and that trap up on the stereo  
So listen up, 'cause it's about to go down

Let me pick you up, let's ride in my Chevy  
Lighten the mood, 'cause it's been a little heavy  
Turn the music up, and ride with the windows down  
Let's go to that spot where we used to kick it  
Let's get down, get the hell out of the city  
Turn the music up, and ride with the windows down  
Let's ride with the window down

So, I don't really do the times roll (Times roll)  
Just layin' back, put it in cruise control (Cruise control)  
Happiness is the ultimate goal  
So listen up, 'cause its about to go down (It's goin' down right here)  
I got a heart full of love that I'm trying to spread  
If you're tired of the haters, then let's put em to bed  
All I need is your permission and a, "Go ahead"  
So, baby girl, let me just (Come on)

So, let me pick you up, let's ride in my Chevy  
Lighten the mood, 'cause it's been a little heavy  
Turn the music up, and ride with the windows down (Come on)  
Let's go to that spot where we used to kick it  
Let's get down, get the hell out of the city  
Turn the music up, and ride with the windows down  
Let's ride with the window down

(So buckle up, better be ready)  
(We gon' ride steady)  
Let's ride, let' ride, let's ride  
(No doubt)

I got a full tank of gas, with nowhere to go  
Put your bag in the back, and let's hit the road  
I mix that soul with that trap up on the stereo  
Don't go to touchin' on my AUX, that's a no-no

Just let me pick you up, let's ride in my Chevy  
Lighten the mood, 'cause it's been a little heavy  
Turn the music up, and ride with the windows down (Yeah)

So let me pick you up, let's ride in my Chevy (Whoa)

Lighten the mood, 'cause it's been a little heavy  
Turn the music up, and ride with the windows down  
(Let's ride, let's ride, let's ride)  
Let's go to that spot where we used to kick it  
Let's get down, get the hell out of the city  
Turn the music up, and ride with the windows down  
Let's ride with the window down

So when I pull up, better be ready  
There's no need to go fast (No need)  
We can ride steady  
When I pull up, you better be ready  
(Let's be ready, be ready, be ready)  
Ah
