

# Do You Ever Think of Me

Willie Nelson

When you find another's arms around you  
Do you ever think of me?  
When you whisper, "I can't live without you"  
Do you ever think of me?  
And when your eyes disguise  
The same old loving lies you tell so tenderly  
And in your heart unfeeling  
When some heart you're stealing  
Do you ever think of me?

When you find another's arms around you  
Do you ever think of me?  
When you whisper, "I can't live without you"  
Do you ever think of me?  
And when your eyes disguise  
The same old loving lies you tell so tenderly  
And in your heart unfeeling  
When some heart you're stealing  
Do you ever think of me?
