

Hello Love Goodbye

Willie Nelson

Last night was a one night love affair
I can't get through my head
That you don't feel the same way I do
You never heard a word I said

Like hold me close and don't turn me loose again
And this night ain't gonna end
You were looking for a lover
I was looking for a friend

But I won't hurt, I won't cry no more
I won't even ask you why
It never fails, it always gives the same
Hello love, goodbye

Goodbye my love I hope I see you soon
Follow the sun and find your dream
I wanna say that it's been lots of fun
I wanna say the words I mean

Like hold me close and don't turn me loose again
This night ain't gonna end
You were looking for a lover
I was looking for a friend

But I won't hurt, I won't cry no more
I won't even ask you why
It never fails, it always gives the same
Hello love, goodbye
Hello love, goodbye
Hello love, goodbye
