## My Own Peculiar Way

## Willie Nelson

(I'll always love you in my own peculiar way)

It would be a comfort just to know you never doubt me

Even though I give you cause most every day

Sometimes I think that you'd be better off without me

Although I love you in my own peculiar way

Don't doubt my love if sometimes my mind should wonder

To a suddenly remembered yesterday

Cause my mind could never stay too long away from you

I'll always love you in my own peculiar way

And though I may not always be the way you'd have me be

And though my faults may grow in number day by day

Let no one ever say that I've ever been untrue

I'll always love you in my own peculiar way

I'll always love you in my own peculiar way
