

Pretend I Never Happened

Willie Nelson

Just pretend I never happened erase me from your mind
You will not want to remember any love as cold as mine

I'll be leaving in the morning for a place I hope I find
All the place must be better than the ones I leave behind
I don't suppose you'll be unhappy you'll find ways to spend your time
But if you ever think about me and if I ever cross your mind
Just pretend I never happened...

I don't suppose you'll be unhappy...
Just pretend I never happened...
You will not want to remember any love as cold as mine
