

There Will Never Be Another You

Willie Nelson

There will be many other nights like this
And I'll be standing here with someone new
There'll be other songs to sing another fall another spring
And there will never be another you

There'll be other lips that I may kiss
They won't thrill me like yours used to do
I may dream a million dreams but how can they come true
For there will never ever be another you

There will be many other nights like this
And I'll be standing here with someone new
There'll be other songs to sing another fall another spring
And there will never be another you

There'll be other lips that I may kiss
They won't thrill me like yours used to do
I may dream a million dreams but how can they come true
For there will never ever be another you
