

## To Get Here

Willie Nelson

There are things I've done  
I wish I could undo  
I'd take back all the pain  
I put the ones who love me through  
And I'd make some better choices  
I'd take some different roads  
I'd hold on to what mattered  
I would never let it go

Life is 20/20 hindsight  
Might take a lifetime just to get something inside  
Might not always get it right  
But you get where you need to be

All the mistakes I made, I'm glad I made them  
All the wrong turns I took, I had to take them  
Can't look back with regret, because the view is never clear  
That's what it took to get here

There are things I said  
I wish I could answer  
I'd erase all the hurt  
From those I have hurt along the way  
I'd like to make the right decisions  
And change some I made before  
And I'd love a little[?]  
And would give 'em little more

Sometimes you get second chances  
When they come you gotta go and grab them  
Might not be the way you planned it  
But you get where you need to be

All the mistakes I made, I'm glad I made them  
All the wrong turns I took, I had to take them  
Can't look back with regret, because the view is never clear  
That's what it took to get here

And you can't go back and change anything  
You can't make what happened happen differently  
But you can what you need  
Get where you need to be

All the mistakes I made, I'm glad I made them  
All the wrong turns I took, I had to take them  
Can't look back with regret, because the view is never clear  
That's what it took to get here
